

DURAFERM® GOAT CONCEPT-AID® PROTEIN TUB

SIZES AVAILABLE

Product #20022
50lb Tub

A breeding mineral with 20% natural protein in a cooked tub for goats specifically designed to target cycling, embryo production and conception when fed 30 days prior to kidding through breeding. Especially beneficial in A.I. and E.T. breeding programs.

AMA FERM® ADVANTAGE

Amaferm® is a precision prebiotic designed to enhance digestibility by amplifying nutrient supply for maximum performance. It is research-proven to increase the energy available to the animal resulting in more milk production as well as the ability to initiate and maintain pregnancy and fertility.

KEY SELLING POINTS

- Amaferm, a precision-based prebiotic that impacts intake, feed digestibility and nutrient absorption for amplified breeding performance.
- 2.5X NRC for quicker impact
- High levels of Vitamin E for reproductive tract repair
- Organic trace minerals for more stability
- 20% natural protein

FEEDING DIRECTIONS

Feed to goats using the following guidelines:

1. Consumption should be approximately 2-6 oz. per head, per day.
2. Provide one 50 lb tub for every 15-20 head.
3. Provide plenty of good quality forage at all times.
4. Free-choice salt should be provided.
5. Provide a fresh, clean water supply at all times.
6. Consumption can vary with weather and feed conditions.
7. If over-consumed, move block farther from water or loafing area.

The above feeding directions are guidelines. Use good management practices adapted to varying conditions.
