

A free-choice vitamin and mineral supplement for beef cattle on pasture to help prevent heat stress during temperatures of 70 degrees and above, or anytime cattle are grazing fescue.

## AMAFERM® ADVANTAGE

Amaferm® is a precision prebiotic designed to enhance digestibility by amplifying nutrient supply for maximum performance. It is research-proven to maintain performance during heat stress and increase forage digestion, a common issue with fescue.

## KEY SELLING POINTS

- Amaferm, a precision-based prebiotic that impacts intake, feed digestibility and nutrient absorption for maintaining performance during heat stress.
- Garlic, considered a natural insect repellent.
- Unique blend of clove, cinnamon and chili pepper to help maintain circulation to support animal performance in both heat and fescue situations.

## FEEDING DIRECTIONS

Feed to beef cattle at the rate of 4 oz. per head, per day. Free-choice salt can be provided if over-consumption occurs.
