

VITAFERM[®] HEAT[®] TUB

SIZES AVAILABLE

Product #20160
200 lb. tub

A cooked tub vitamin and mineral supplement for beef cattle on pasture to help prevent heat stress during temperatures of 70 degrees and above, or anytime cattle are grazing fescue.

AMA FERM[®] ADVANTAGE

Amaferm[®] is a precision prebiotic designed to enhance digestibility by amplifying nutrient supply for maximum performance. It is research-proven to maintain performance during heat stress and increase forage digestion, a common issue with fescue.

KEY SELLING POINTS

- Amaferm, a precision-based prebiotic that impacts intake, feed digestibility and nutrient absorption for maintaining performance during heat stress.
- Includes garlic, considered a natural insect deterrent.
- Unique blend of clove, cinnamon and chili pepper to help maintain circulation to support animal performance in both heat and fescue situations.

FEEDING DIRECTIONS

Feed to beef cattle using the following guidelines:

1. Consumption should be approximately 8 oz. per head, per day.
2. Provide one 200 lb. tub for every 25-35 head.
3. Provide plenty of good quality forage at all times.
4. Free-choice salt should be provided.
5. Provide a fresh, clean water supply at all times.
6. Consumption can vary with weather and feed conditions.
7. If over-consumed, move block farther from water or loafing area.

The above feeding directions are guidelines. Use good management practices adapted to varying conditions.
