

GAIN SMART® BALANCER RU1600

SIZES AVAILABLE

Product #62100
50 lb. bag

Product #62104
TOTE

A vitamin and mineral supplement for stocker cattle with rumensin designed to maximize efficient gain and balance high grain diets when mixing TMR rations.

KEY SELLING POINTS

- Contains AO-Biotics® Amaferm®, a prebiotic research-proven to enhance digestibility.
- Contains rumensin for improved feed efficiency.
- Includes organic copper, iodine and zinc for maximum bioavailability and hoof health.

FEEDING DIRECTIONS

Thoroughly mix monensin Type B medicated feed with non-medicated feed to manufacture another concentration of Type B medicated feed or a Type C medicated feed. The Type C medicated feed will have a final concentration of 5 to 40 g/ton monensin for improved feed efficiency or 10 to 40 g/ton monensin for the prevention and control of coccidiosis. No additional improvement in feed efficiency has been shown from feeding monensin at levels greater than 30 g/ton (360 mg monensin per head per day). The following table gives examples of how some Type C medicated feed concentrations can be prepared:

Monensin Concentration in Type B Medicated Feed (g/ton)	Resulting Monensin Concentration in Type C Medicated Feed (g/ton)				
	5	10	20	30	40*
	Lb of Type B Medicated Feed to make 1 ton of Type C Medicated Feed				
1,600	6.25	12.5	25	37.5	50

*No additional improvement in feed efficiency has been shown from feeding monensin at levels greater than 30 g/ton (360 mg monensin per head, per day)

GUARANTEED ANALYSIS

Organic TMs Inside	Cu, Zn
Calcium % Min	27.0
Calcium % Max	32.0
Salt % Min	10.5
Salt % Max	12.5
Potassium % Min	1.0
Cobalt ppm Min	7.0
Copper ppm Min	950
